### EFC's Supply Chain Conference

The Canadian Electrical industry's first conference centered around supply chain management.

Delegates at this year's EFC Conference in May collectively agreed that *our industry in Canada has only 3 years to prepare for major disruption to our supply chain.*

This event brings together supply chain experts and their company decision makers for a working conference to discuss best practices, including data warehousing, robotics, digitization, VMI, EDI and other emerging trends that will disrupt our future.

### Conference Pass \$279

Includes: 2 Days of Conference;  
Access to Opening Reception & Dinner;  
Day 2 Access to Breakfast & Lunch;  
Complimentary Bonus Access to  
**eComm 101 sessions**

### SHORTER

Shorten your delivery, anticipate the need, optimize freight costs, reduce stock vacancies

### FASTER

Improve your delivery, meet customer's demands, more machine to machine, less people, less red tape

### SMARTER

Do it once, do it right, outperform... in value and service
