

# EFC's Charity of Choice is Habitat for Humanity Canada

\$1 Million + raised in 2018/2019 another \$1 million needed for 2020

**1 out of 8 households in Canada are in need of core housing** - HRH Key Fact Sheet

Like Habitat Canada, EFC strongly believes that everyone deserves a safe and affordable place to call home. Habitat Canada knows affordable home ownership empowers Canadian families with a sense of pride and independence. A number of EFC members are strong supporters of Habitat Canada. Many member companies not only contribute financially, but also provide product and volunteer support to Habitat affiliates across Canada.

## Three Ways to Get Involved

**2019: Goal to build 250 affordable homes in Canada**

**2018: 238 Homes built across Canada with the help of EFC member donations**

### 1. Product Donations

Donate gift-in-kind products to go directly into our Habitat homes. Electrical products such as loadcentres, circuit breakers, and wiring are a large expense for local Habitats. To see more electrical needs, [click here](#)

### 2. Cash Donations

Your team can have their own Habitat Build Day or you can pool funds with other EFC members in your area and participate together

### 3. ReStore Donations

Discontinued product or product not required for building a home can go to ReStores. All proceeds go back to the local Habitat and help build more homes
